

ANNUAL INDEX to DUN'S REVIEW

VOLUME 49 . . . NUMBERS 2153-2164 . . . JANUARY-DECEMBER, 1941

ARTICLES are listed in this index by author, title, company, and subject, each entry referring to the issue date and page number. Broad subject headings are used; this is not a completely detailed subject index.

As a guide to the inclusiveness or nature of the material indexed, the titles of major articles are printed in *italic type*, short items are indicated by an (s), photographs that appear without extended text by (p), and views of cities shown on the covers by (c).

In using this index it will be helpful to keep in mind the nature of the contents of DUN'S REVIEW. The magazine deals with trends, tendencies, developments, and legislation which are significant in their effect on the policies of

businesses. It is planned to serve chief executives who must take into consideration the long-time influences of such forces. In each monthly number are articles by authorities in their fields or resulting from research activities. There also are monthly sections or departments, several of which summarize business statistical data.

During 1941 three research projects were reported at length and are indexed under appropriate subject headings. The "Survey of Retail Operating Costs," and "Fourteen Financial Ratios for 72 Industries and Trades" include figures for many trades and industries; these individual lines of business are not indexed. Similarly in the surveys of defense created consumer purchasing power, the individual

communities are not listed separately here: a "Finding List of Localities Affected" appeared on page 8 in March, page 57 in June, and page 79 in November.

Statistical series originally compiled by the publisher are subject indexed and can also be located easily in "The Regional Trade Barometers," "Significant Business Indicators," and "Analyzing the Record of Industrial and Commercial Failures." Statistical data compiled by others are reported in "The Trend of Business," "Through the Statistician's Eyes," and elsewhere; such data are indexed by subject, but statistical sources are not listed in this index. Nor are the books which have been mentioned or reviewed listed here (see "The Business Bookshelf").

LAWRENCE D. THORNTON

DUN'S REVIEW

... impartially interprets the effects of significant trends, developments, legislation

... reports the findings of authoritative research

... presents the views of leaders of American thinking on controversial subjects

... reviews business conditions

For the man

... whose decisions determine the profits and the future of an enterprise

... who wishes to see the evidence and make up his own mind

... who likes the maximum of fact crowded into short space

... who doesn't mind long articles if they say something

... who wants a magazine that can pick the critical subjects before their importance is generally recognized

... to receive the next 12 numbers of DUN'S REVIEW send the editors at 290 Broadway, New York, a postcard with your name and address on it. A statement (\$4) will be sent you. . . Three years for \$10 if you prefer.
